The Fund Manager is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting standards in the Kingdom of Saudi Arabia and for such internal control as the Fund Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Fund Manager has provided us with all the information and explanations that we require relating to our audit of these financial statements.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with generally accepted auditing standards in the Kingdom of Saudi Arabia. Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund Manager's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Fund Manager, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

1. GENERAL

Bakheet Saudi Trading Equity Fund (the "Fund") is an investment fund established through an agreement between Bakheet Investment Group (the "Fund Manager") and the Fund Investors (the "Unitholders") by virtue of approval of the Saudi Capital Market Authority (the "CMA") dated 12 Rabi I 1428H (corresponding to 31 March 2007). The Fund commenced its operations on 7 May 2007.

During 2013, the Fund Manager and Osool Capital, a CMA license company registered in Kingdom of Saudi Arabia have resolved to merge their operations. The legal formalities in this regard have been initiated and are expected to be completed in the first half of 2014.

The Fund's primary objective is to maximize capital growth by achieving a positive return while minimizing potential risks through investing in Saudi Joint stock companies that are compliant with Shariah criteria and investing the Fund' s available liquidity in low risk and highly liquid Saudi Riyal assets (such as Murabaha and Murabaha funds in Saudi Riyal).

In dealing with the Unit holders, the Fund Manager considers the Fund as an independent unit. Accordingly, the Fund Manager prepares separate financial statements for the Fund.

The address of the Fund Manager is as follows:

Bakheet Investment Group
P. O. Box 63762
Riyadh 11526
Kingdom of Saudi Arabia

2. REGULATING AUTHORITY

The Fund is governed by the Investment Fund Regulations issued by the CMA on 3 Dhul Hijja 1427H (corresponding to 24 December 2006) detailing requirements for all funds operating within the Kingdom of Saudi Arabia.

3. SUBSCRIPTION / REDEMPTION (DEALING DAY AND VALUATION DAY)

The Fund is open for subscriptions / redemptions of units on every business day (each a "Dealing Day") of the Saudi Stock Market. The value of the Fund's portfolio is determined on each dealing day (each a "Valuation Day"). The net asset value of the Fund for the purpose of purchase or sale of units is determined by dividing the net value of assets (fair value of fund assets minus fund liabilities) by the total number of outstanding fund units on the relevant valuation day.

4. BASIS OF PREPARATION

The unrealized gains or losses on the revaluation of investments are recognized in the statement of income. Investment transactions are accounted for as of the trade date.

5.2 Revenue recognition

The realized gain or loss from a held for trading investments is calculated as the difference between its carrying amount at the beginning of the reporting period, or transaction price when purchased in the current reporting period and it's sale price.

The unrealized gain or loss is calculated as the difference between the carrying amount of a held for trading investment at the beginning of the reporting period, or transaction price when purchased in the current reporting period and its carrying amount at the end of the reporting period.

10. RISK MANAGEMENT POLICIES

Credit risk

Credit risk is the risk that the counter party to a financial instrument may fail to discharge an obligation and cause the Fund to incur a financial loss.

The Fund is exposed to credit risk for its cash balance only. The exposure is not significant as the cash balance is maintained with a local bank which has sound credit rating and a stock exchange broker.

Equity price risk

Equity price risk is the risk that the fair value of an equity investment may fluctuate as a result of changes in market prices. The Fund is exposed to equity price risk arising from its held for trading investments.

The Fund Manager endeavours to minimize this risk including concentration risk through continuous monitoring of market conditions and diversification of its investments across various sectors of Saudi Arabian equity market.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in arranging funds to meet commitments associated with settlement of financial liabilities and redemption of units.

The Fund's securities are considered to be readily realizable as investments are made in quoted equities and can easily be realized at any time. The Fund Manager monitors the liquidity requirements on a regular basis and ensures that sufficient funds are available to meet any commitments as they arise.

11. FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction.

Financial instruments consist of financial assets and financial liabilities. The Fund's financial assets consist of cash at bank and held for trading investments and financial liabilities consist of management and custody fees, Board of Directors' fee, Shari'a committee members fees and certain accrued expenses.

For investments traded in an active market, fair value is determined by reference to quoted market prices. The fair value of other financial instruments is not materially different from their carrying values.

12. LAST VALUATION DATE

The last valuation day of the year was 31 December 2013 (2012: 31 December 2012).
